

The Rotatathon XChange Programme

Now you can unleash the power of a Bizzwork.com Rotatathon on your business. We have created the special Rotatathon XChange programme so that you can get the most out of your existing business network. By holding your very own professionally run and managed event, tailored to your needs, you can be one step ahead of the competition.

Why might a Rotatathon XChange work for your business?

You are a business that knows there is still growth to be gained from your own customers.

As a business you have spent time forging a customer base and now you want to get more from it. By running a Rotatathon XChange event you have the choice of either networking with your customers or letting your customers network with themselves. Either way you gain! If you have some great new product or service announcement and you want to create a special event to communicate it, what better way to do it than by networking your network. We make it simple. We can handle any number of customers from 25 to 125 and get **you** face to face with most of them in a very short space of time.

This is a great opportunity to get extra business and help your customers to enlarge their business contacts. The Rotatathon can also be used for enabling your customers to meet each other in a speed networking experience that they will thank you for hosting and which will create great loyalty for you!

You are a start up company and you need to build a good business network quickly and efficiently to ensure your future.

Get your venue and call us in. We will help you organise and hold your own event. At the heart of it will be the unique Rotatathon, where you can meet more than 35 new contacts in just one hour. A support network of new customers, suppliers or even just business contacts is waiting for you. We are certain you will not be disappointed with the results.

You are a company which understands that good people are an increasingly valuable asset.

You have some job vacancies and you need to fill them by screening a number of likely candidates. You want to see a lot of applicants, but you simply cannot afford the time this long protracted process usually takes!

We can create one or more back to back events using the rotation method of the intriguing Rotatathon. You could meet over 100 people in just 4 sessions!

By rotating amongst your prospective employees you can do an efficient pre-screening with this speed contact formula. Each candidate gets a chance to introduce themselves in just two minutes. As we all know, it only takes a few minutes to see if someone might fit into your organisation. After this initial impression then you can shortlist suitable candidates for a more formal interview process.

You are a company that truly believes in harvesting ideas from your employees.

You want an efficient and fun way to include all your employees in coming up with good ideas to improve the business. A Rotatathon is an ideal method for social innovation of this kind ... progressive companies are saying this is the way to an 'idea rich future'. Employees are the best source of working ideas. They can be given the opportunity to develop an idea which will add value to your company. They craft these down into a 2 minute business pitch. These are then presented in our Rotatathon and this can be made into a series of "rounds" where the numbers are sifted down to the very best of all the ideas.

This leads to a final round with a winner being chosen and a prize being presented. It's a great way to keep a motivated and productive workforce.

Whatever business need you have, like the above examples or even a different one, please talk to us about how a Rotatathon XChange can be tailored to fit that need.

We are very flexible and will listen to any proposal. We certainly have the energy, enthusiasm and commitment to make it work for you.
